PROFESSIONAL SUMMARY

B.E. AI & Data Science student seeking an entry-level opportunity to leverage skills in Python, Machine Learning, and Data Science while continuously learning and contributing to organizational goals.

Bachelor of Engineering — Artificial Intelligence & Data Science

Expected May 2027

SCSMCOE, Savitribai Phule Pune University (SPPU) | CGPA: 6.02 / 10.0

HSC (Class XII) — Science

May 2022

SNVK, Maharashtra State Board | JEE Percentage: 55.25%

SSC (Class X)

May 2020

SNVK, Maharashtra State Board | Percentage: 64.20%

TECHNICAL SKILLS

Languages:	Python, SQL, C
AI / ML Libraries:	Scikit-learn, Pandas, NumPy
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, Jupyternotebook, VS Code, Flask

PROJECTS

Stock Price Prediction

GitHub: [sanket124w/stock-prediction](#)

Python, Flask, Scikit-learn, HTML, CSS

- Built a machine-learning solution using Python and Linear Regression to predict the next day's stock closing price from cleaned historical market data.
- Implemented data preprocessing, Min-Max scaling, train-test evaluation, and actual-vs-predicted visualizations to make model performance easy to interpret.

Personal Portfolio

GitHub: [sanket124w/Personal-Portfolio](#)

HTML5, CSS, Java

- Built a responsive personal portfolio website with dark/light mode, smooth navigation, mobile-friendly design, and animated sections. It highlights my skills in HTML, CSS, and JavaScript through dynamic UI features such as theme persistence, scroll effects, and an interactive contact form.

INTERNSHIP / EXPERIENCE

Data Science Intern — Shorat Innovation

Jan 2026 — Feb 2026

- data preprocessing, exploratory data analysis, data visualization
- Worked with Python and common data science libraries like NumPy, Pandas, Matplotlib, Seaborn

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
— OCI ML Services | January 2026
- Enrolled for Foundations of Machine Learning — NPTEL (IIT Madras) | July 2026

ACHIEVEMENTS

- Participated among 3.4K+ participants in the National Cloud & AI Innovation Challenge Season 2 by 3SVK.
